

Science Club

at Saint Patrick
Catholic School

When: Monday, 2:45 - 3:45
October 2 to December 4 (no class on October 16)

Where: We will start in classroom 1A but sometimes we will move outside.

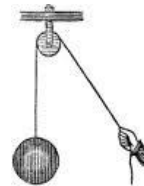

What: We will use a hands on/discovery approach to explore a wide variety of subjects such as parts of a plant, animals and their life cycles, causes of changing weather, objects in motion, simple machines, forces, types of rocks, and fossils.

Who: The Science Club is open to all 2nd and 3rd graders and will be taught by Tim Decker, the lead teacher at the Agua Hedionda Lagoon Foundation. Tim has been a Science teacher for years in both formal and informal settings. If you have any questions, please contact him at timdecker55@msn.com.

Cost: \$120 for 8 weeks
make checks payable to St. Patrick
Catholic School
